Notes				
"Finish Rank" is in order of corrected time, which is calculate by multiplying elapsed time by the yacht's handicap and applies only to yachts that complete the course within the time limit.	"Non-finish Rank" is based on corrected distance sailed along the track. It applies only to those yachts which do not complete the course (or shortened course) within the time limit. "Non-finish Rank" is calculated by working out corrected leg length (leg length multiplied by handicap) and subtracting corrected distance to finish (distance to finish divided by handicap). The longest corrected distance sailed gets a place one below the last finisher with subsequent positions in descending order of corrected distance sailed.			All yachts that do not finish in accordance with the rules share the remaining positions.
